NOTES TO FINANCIAL STATEMENTS

M-CAID

Notes to Statutory Filing June 30, 2006

Note 1—Operations and Summary of Significant Accounting Policies

Organization and Basis of Presentation: M-CAID is a not-for-profit corporation ("the Corporation") established by The Regents of The University of Michigan as a subsidiary of M-CARE for the purpose of contracting directly with the State of Michigan to administer a Medicaid health maintenance organization. The Corporation is a tax-exempt entity under the provisions of section 501 (c)(4) of the Internal Revenue Code. The Corporation is regulated and licensed by the State of Michigan Office of Financial and Insurance Services ("OFIS") and must submit periodic filings under rules promulgated by the State of Michigan.

The Regents of The University of Michigan, as the sole member of the Corporation, have the ultimate responsibility for the Corporation, and as part of the University, the financial position and results of operations of the Corporation are included in the combined financial statements.

<u>Summary of Significant Accounting Policies</u>: The financial statements have been prepared in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures* manual except to the extent that the laws of the State of Michigan differ. The State of Michigan adopted codification guidance effective January 1, 2003 with order number 05-056-M, which allows entities to transition into codification if there is a significant financial impact. The Corporation was not impacted significantly by adopting codification and adopted it in full in January 1, 2003. Therefore, there are no significant differences between NAIC statutory accounting practices and the laws of the State of Michigan in the Corporation's financial statements.

<u>Use of Estimates</u>: The preparation of financial statements in conformity with the *Annual Statement Instructions* and *Accounting Practices and Procedures Manual* requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Cash and Short-Term Investments: Cash and short-term investments include investments with maturities of less than one year at the date of acquisition. The carrying amounts reported in the accompanying balance sheet is at amortized cost.

Investments: Bonds are stated at amortized cost using the effective yield method.

Realized gains and losses are recognized in operations at the date of sale. A realized gain or loss represents the difference between the net sale proceeds received on the sale of a security and the security's historical cost. If the investment security is a bond, historical cost is the amount paid at acquisition adjusted by accumulated bond amortization or accretion.

Health Care and Other Amounts Receivable: The Corporation contracts with the University of Michigan Hospitals and Health Centers ("UMHHC") and Faculty Group Practice ("FGP"), which are also subsidiaries of The University of Michigan, for all services received by the Corporation's

subscribers. As such, all the Corporation's health expense was paid to the UMHHC and FGP. Services provided that are outside of the UMHHC and FGP provider system are ultimately their responsibility. Therefore, the Corporation has recorded a receivable from the UMHHC and FGP for the amount of unpaid claims at the end of the year. Additionally, to the extent that capitation paid to the UMHHC and FGP is different from the contractually agreed upon amounts, the Corporation records a receivable or payable. As a result of these two types of transactions, the Corporation has recorded a \$2,500,000 and \$1,700,000 receivable at December 31, 2005, and 2004, respectively.

Trust Accounts: As a condition of licensure with the State of Michigan, the Corporation has a statutory trust to maintain restricted funds for the sole benefit of the Corporation's members in the case of insolvency. These funds, which can be used only at the direction of the Insurance Commissioner in accordance with statutory provisions, are invested with JPMorgan Institutional Trust Services. Interest earned on these funds accrue to, and can be utilized by, the Corporation. As of December 31, 2005 and 2004, the Corporation had reached the required maximum balance of \$1,000,000.

Health Liability: Claims unpaid and unpaid claims adjustment expense represent management's best estimate of ultimate costs of all reported and unreported claims incurred through December 31. The liability for claims unpaid and unpaid adjustment expenses are estimated using individual case-basis valuations, statistical analyses and prior experience adjusted for current trends. Those estimates are subject to the effects of trends in cost and utilization of health care services. Although considerable variability is inherent in such estimates, management believes that the liability for claims unpaid and unpaid adjustment expenses is adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

Premiums: Premium revenues are recognized as revenue in the period in which the member is entitled to service.

Quality Assurance Assessment Fee: During 2003, the State of Michigan Department of Community Health began assessing the quality assurance assessment fee on each health maintenance organization that has a Medicaid managed care contract. The fee is based on a percentage of non-medicare premiums collected by the Corporation.

Health Expense: The Corporation contracts with the University of Michigan Hospitals and Health Centers ("UMHHC") and Faculty Group Practice ("FGP") under a full capitation arrangement.

Reclassifications: Certain prior year amounts have been reclassified to conform with current year presentations.
